Professional Educational Management

Projects in Education & Training

Public and private **schools** from kindergartens to universities, **organisations from the educational sector** from ministries to NGOs and **companies** and organisations offering internal training programmes are invited to assign me to their project teams or to completely delegate a project to me.

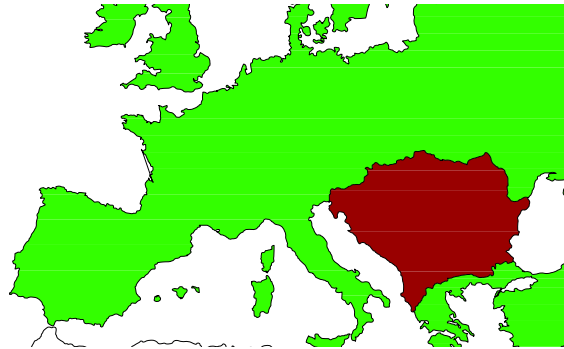

Service Portfolio:

- Conception, preparation, and realisation of projects from the fields for **quality management** (accreditation, university rankings) and **internationalisation**
- Consulting on the **organisation** of structures and processes in educational institutions
- Conception and realisation of **brochures and websites** in English and German
- Editing **project proposals**
- Editing journalistic articles and press releases
- Organisation of **events** and conferences

International: At Home in South Eastern Europe

In South Eastern Europe, education and training as well as educational management still need to develop in order to meet European standards and to enable institutions and individuals to participate fully in the European educational area.

The need to develop has also been noticed by international organisations such as the European Union and a number of institutions from the field of **development cooperation**.

More than 10 development organisations from Germany, Italy, the Netherlands and the United Kingdom have included me in their **expert databases** for projects in the field of education & training in South Eastern Europe.

In the course of research projects, I am available for tasks in educational management, e.g. taking care of the dissemination of results. For this purpose you can find me in the *FP7 Experts Management Module*.

Education as Event

Education growingly needs to leave the beaten tracks and must react to the increasing importance of events in today's society. This is especially true when young students are addressed.

In co-operation with Edith Hausleitner's company *Fest im Griff*, **educational events off the beaten track are offered:**

- Unusual locations
- Dovetailed educational and leisure programmes
- Customised solutions for groups

The expression "educational journey" gets a totally new meaning!

For legal reasons, educational events can only be offered from 2008.
